

Lake Perris State Recreation Area

GENERAL PLAN

ONLINE PARK USER SURVEY SUMMARY

MAY 2026

Prepared for:
California State Parks
715 P St, 14th Floor
Sacramento, CA 95814

1.1 INTRODUCTION

California State Parks (State Parks) is preparing the Lake Perris State Recreation Area (SRA) General Plan and Environmental Impact Report to guide the park's long-range management, operations, and future recreational development. This plan will serve as the park's primary management document, establishing a clear vision for the park's future along with supporting goals and guidelines. The plan will also provide park staff and managers with a framework for making decisions about future recreation facilities, infrastructure improvements, and resource management and conservation.

State Parks and their consultant, Ascent, conducted an online park user survey from December 15, 2025, to February 15, 2026, to gather input on visitor preferences, needs, issues, and opportunities at the park, including current and future park uses and demographic information. The results of the survey are one of many sources of information that will be used to inform the preparation of the General Plan. Additional sources include input from public meetings, online activities, written comments, California Native American tribes and other public agencies, and other resource and technical data. This summary document contains the following sections:

- **Survey Design** – Describes the survey instrument used to gather responses.
- **Key Findings** – Summarizes key themes and takeaways from the collected responses.
- **Public Outreach** – Describes the outreach used to advertise and capture survey responses.
- **Survey Responses** – Summarizes responses of each survey question in graph or bullet format.

1.2 SURVEY DESIGN

The online park user survey was conducted as part of the public outreach effort for the General Plan and was developed to gather input on community needs, preferences, issues, and opportunities to help inform the planning process. The survey asked a series of 22 questions covering general topics including current park use, visitor experience, future park opportunities, and demographic information. Respondents could also sign up for the project mailing list to stay involved in the process. All survey questions were optional.

The survey was conducted through the digital platform Social Pinpoint, which allowed users to opt-in to provide feedback. As an opt-in survey, these results represent a non-probability sample because respondents were not randomly selected. Therefore, these results reflect the perceptions of individuals that chose to participate in the survey and are not intended to provide a representative sample of the entire population of park visitors or surrounding community.

1.3 KEY FINDINGS

The following key findings were gathered from both the results of the multiple-choice questions and open-ended answers received in the survey responses:

- Thirty-five percent of respondents visit the park **a few times a year** with 29 percent of respondents visiting **multiple times a month**.
- **Forty-three percent of respondents visit the park year round**, with **July to September** being the most popular season to visit (23 percent of respondents visit during the summertime).
- Most respondents used the park for **RV or tent camping** (73 percent) and **water-related activities** (68 percent) including fishing, swimming, boating, and jet skiing.
- Almost all respondents travel to the park **via personal vehicles** (97 percent).
- Forty-two percent of respondents visit Lake Perris SRA in **groups of two to three people**, followed by 32 percent in **groups of four to six people**.

- The top improvements that respondents would like to see at the park include **enhancements to campgrounds and sites** (53 percent) and **improved maintenance of facilities and amenities** (51 percent).
- The top three day-use facilities and amenities that respondents reported wanting to see more of are: **additional camping opportunities** (37 percent); **fishing access improvements** (30 percent); and **more trailheads and trails** (27 percent).
- The leading types of programs, information, and events that respondents reported wanting to see more of include: **special events** (33 percent); **visitor etiquette messaging/information** (31 percent); **guided activities** (29 percent); and **fishing programs or information** (29 percent).
- The leading changes that respondents reported wanting to see to special events at Lake Perris SRA include: **continued access to the park during special events** (33 percent); **providing cultural or family friendly events** (28 percent); and **providing improved safety measures and visitor security during events** (25 percent).
- Key themes that emerged from the open-ended answers include:
 - Lake Perris SRA serves as a close-to-home scenic escape for users, with many respondents describing childhood memories of fishing and camping at the park.
 - Users value the wide variety of outdoor recreation activities, with opportunities for all ages.
 - Water safety concerns related to crowding, unsafe boating behavior, and conflicts between motorized and non-motorized activities.
 - Need for stronger enforcement of safety and nuisance regulations at the lake and within campground.
 - Improve the overall campground and visitor experience to better support comfort, usability, and quality of stay.
 - Concerns regarding decline in fish populations in the lake and a desire for replenishing fisheries and restoring aquatic habitat to support fish populations.
 - Concerns regarding maintenance and upkeep of facilities and amenities.
 - Mixed opinions about special events at the park, with common concerns being loss of public access during special events, crowding, and impacts to the cleanliness of the park.
- Most survey respondents were **older than 35 years old** (83 percent). 95 percent reported **English as the primary language** spoken at home. 51 percent of respondents identified as White, followed by 29 percent of respondents identifying as Hispanic or Latino.

1.4 PUBLIC OUTREACH

The following strategies were used in advertising the park user survey and encourage participation from a broad range of park users, from those who visit frequently to those who may not visit as often.

Project Website

The project website (lakeperrisgp.com) is maintained to provide information on the General Plan process, including a project overview, frequently asked questions, and project schedules. It also allows visitors to sign up for the project mailing list and stay up to date on upcoming outreach events and ways to stay involved. The website also provides contact information for those with questions or comments, as well as a link to the State Parks website for Lake Perris SRA. The survey was accessed via the project website.

Email Communication & Project Mailing List

An initial project contact list was compiled from camp reservation records from recent years, yielding approximately 25,000 email addresses. An email was sent to this list to announce the launch of the General Plan process, invite recipients to complete the public survey, and encourage those interested in staying informed to join the project mailing list for future updates. The project mailing list will be used to keep recipients informed on plan updates and upcoming opportunities to provide feedback. Individuals can sign up for the project mailing list at any time throughout the General Plan process.

Social Media

Social media posts were shared across the Lake Perris SRA and California State Parks Instagram and Facebook accounts encouraging the public to participate in the survey and directing them to the project website. Content was provided in both English and Spanish.

Signage/Handouts

Signs and flyers were posted at park entrances, the museum, and throughout main thoroughfares and restroom areas of the park announcing the initiation of the Lake Perris SRA General Plan, project website, and online survey. Each sign included a QR code directing visitors to the project website and survey.

Targeted Outreach

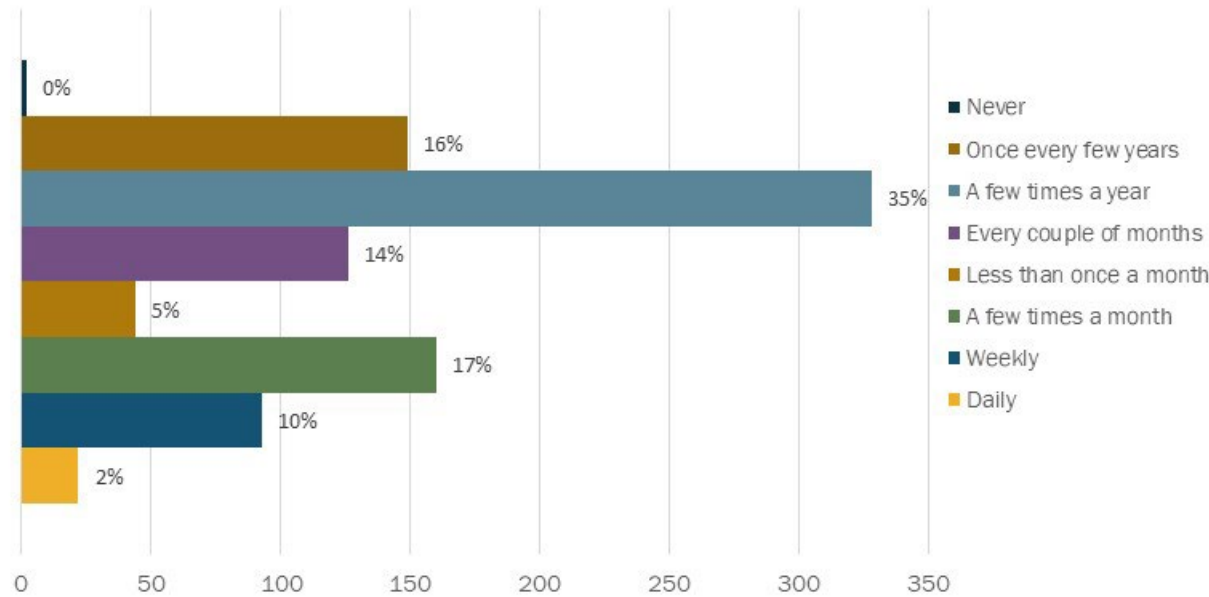

Direct outreach included sharing the survey with specific park user groups, such as equestrians, boaters, and other recreational groups.

1.5 SURVEY RESPONSES

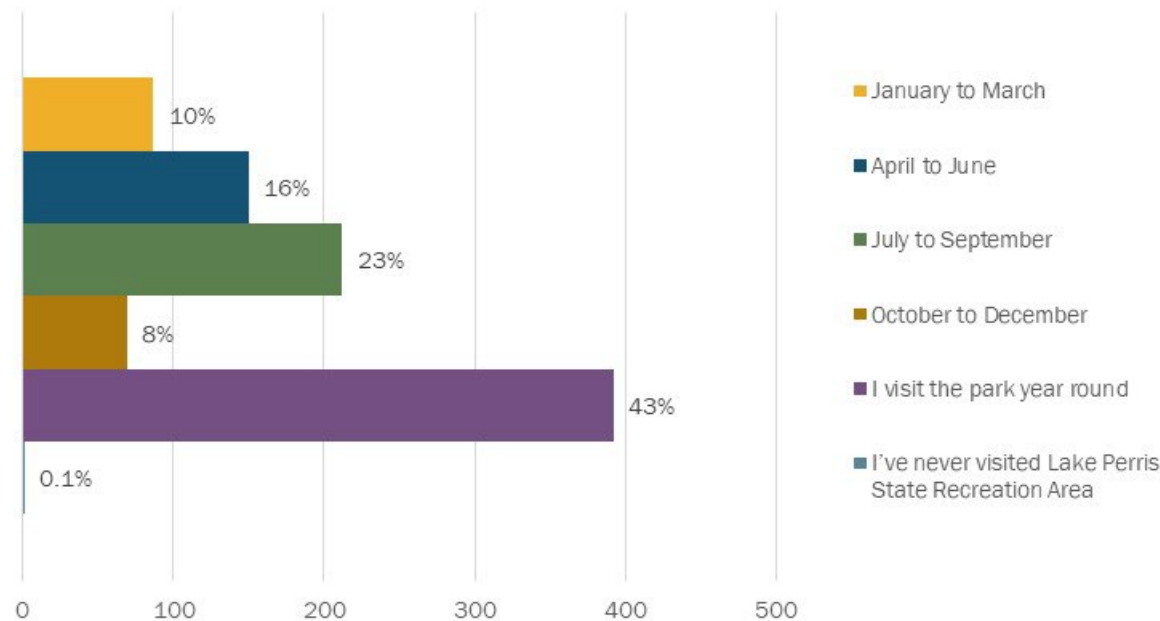

The Lake Perris SRA Park User Survey was made available digitally on the project website (lakeperrisgp.com) from December 15, 2025, to February 15, 2026. A total of **927 contributions** were received. Below is a summary of responses received.

Current Park Use

1. How frequently do you or members of your household visit Lake Perris State Recreation Area?

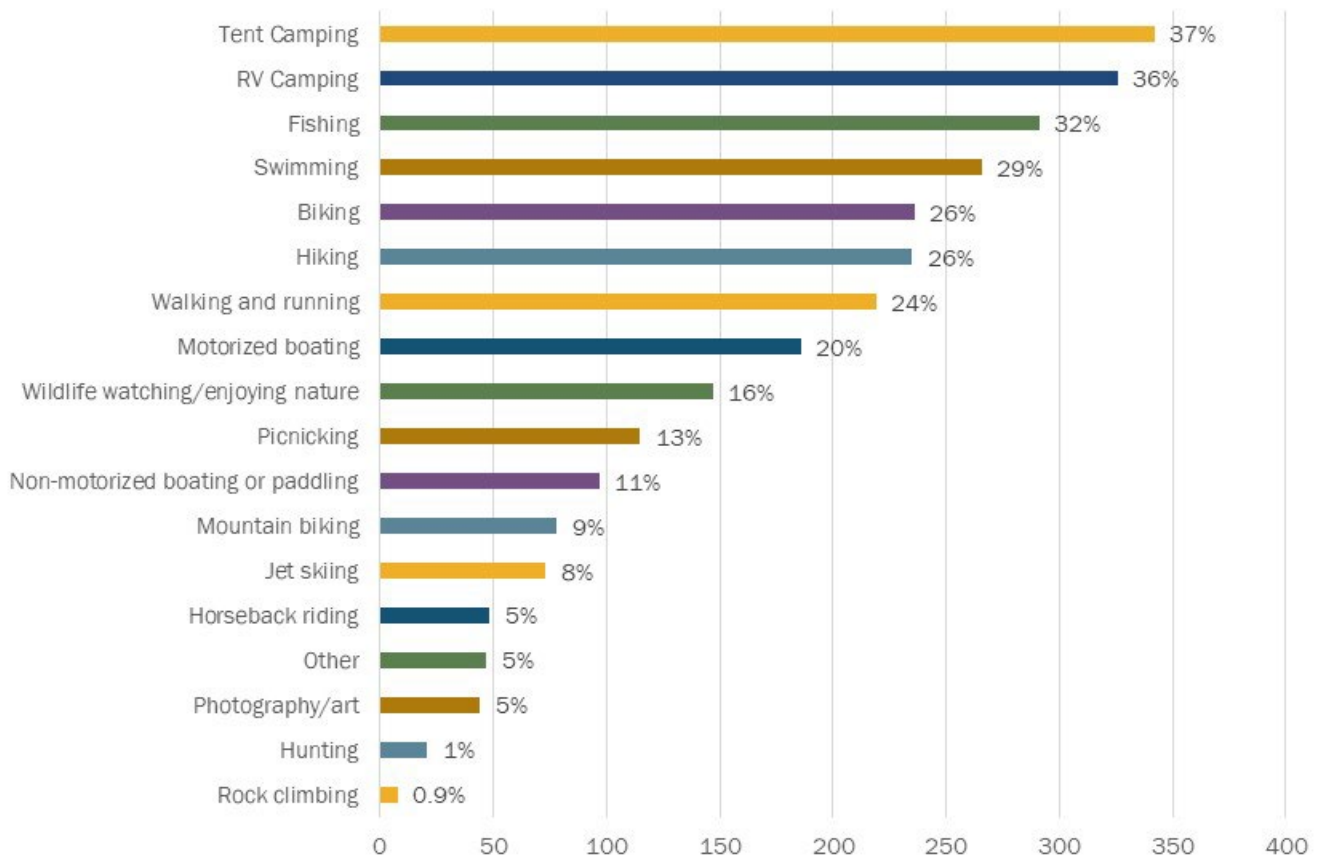

2. What time of year do you most often visit Lake Perris State Recreation Area?

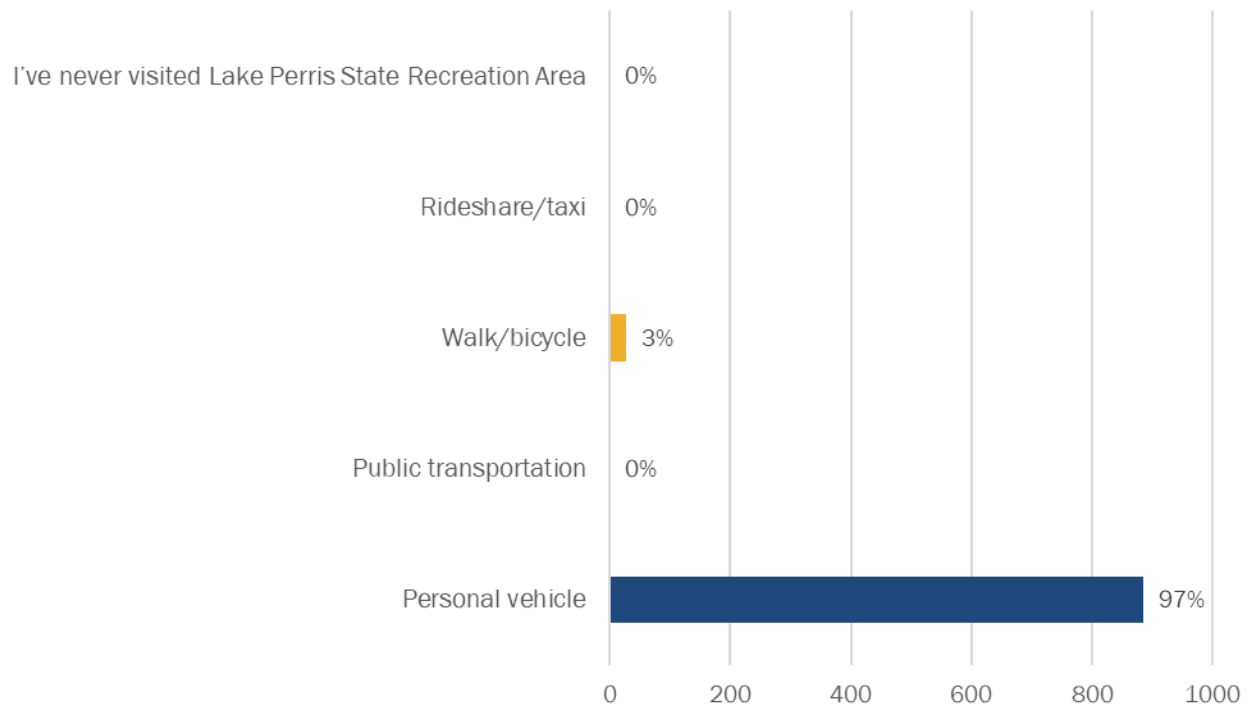

3. What primary activities do you or members of your household typically participate in at Lake Perris State Recreation Area? (Select up to 4 choices)

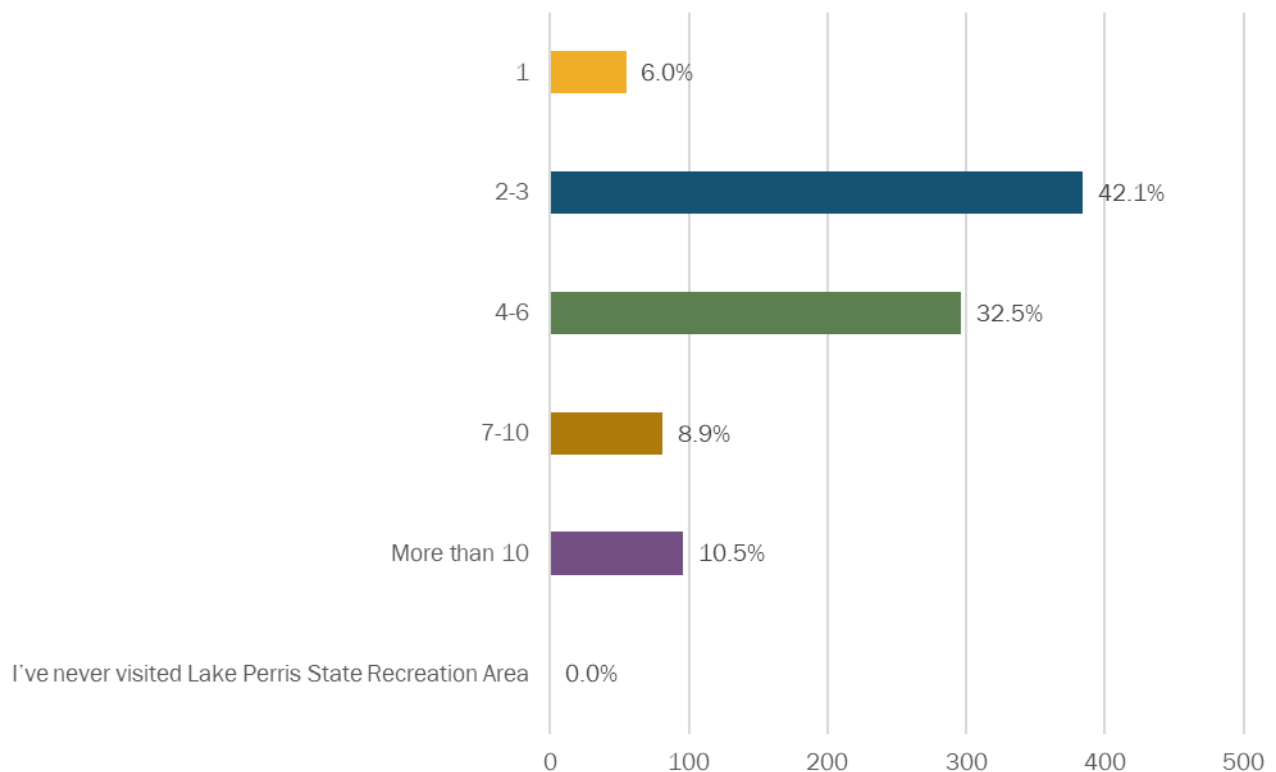

Other Activities From Write-In Responses to Question 3:

- Water sports including wakesurfing/wakeboarding, wingfoiling, paddleboarding, kayaking, scuba diving, and swimming.
- Camping activities such as RV camping (including RV rental delivery and set up as a business), tiny trailer and tent camping, overnight horse camping.
- Equestrian activities including equestrian camping and trail riding.
- Events and festivals including the Desert Daze music festival, Spartan Races and triathlons, and amateur radio activities.
- Dog-related activities including dog walking and attending dog shows.
- Cultural and educational activities including museum visits, ranger-led activities, and archaeological stewardship and site monitoring.
- Metal detecting.

4. Please indicate your preferred mode of transportation to Lake Perris State Recreation Area.

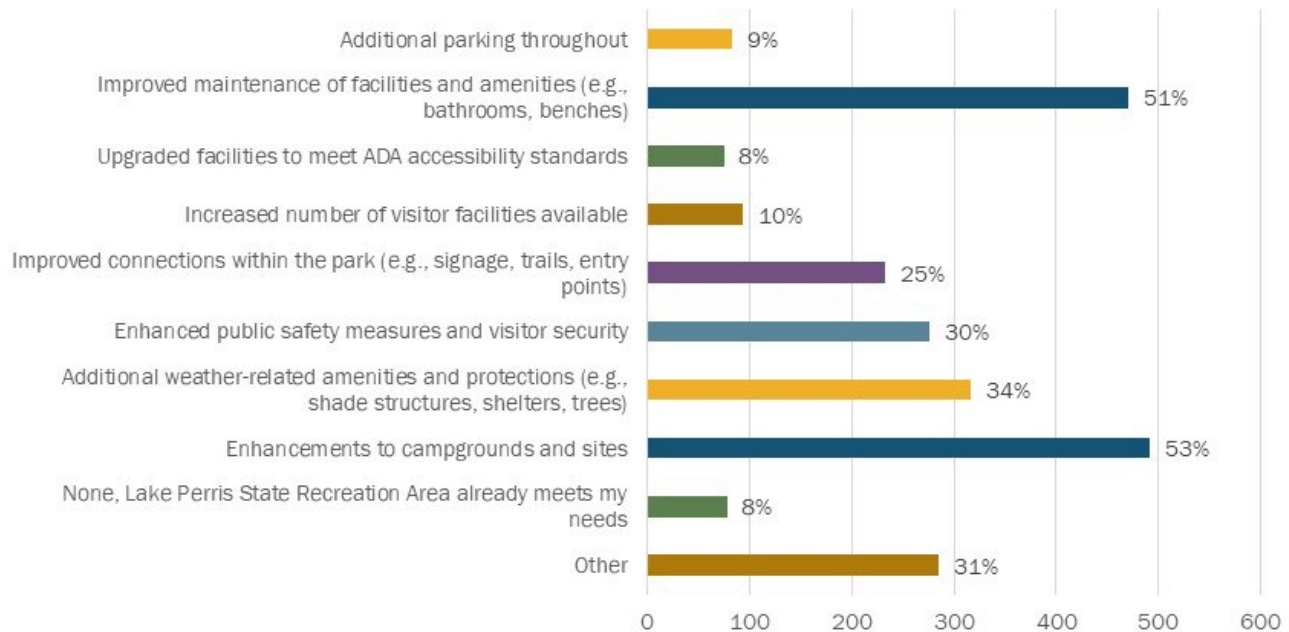

5. What is your typical group size while visiting Lake Perris State Recreation Area?

Visitor Experience

6. What would improve your experience visiting Lake Perris State Recreation Area? (Select all that apply)

Other Key Takeaways From Write-In Responses to Question 6:

Water Safety Concerns & Enforcement

- Water safety concerns due to crowding on the lake.
- Reckless or high-speed watercraft use creating unsafe conditions
- Bans or restrict jet skis and wake boats.
- Limited ranger patrol presence and need for increased enforcement on the water.
- Improved on-water signage, maps, and buoy maintenance
- Boater licensing and safety card enforcement.
- Separation of motorized and non-motorized use areas

Fish Stocking & Fishery Management

- Decline in fishing quality and need to restore fish populations.
- Stocking of trout, bass, crappie, and catfish.
- Opportunity for youth fishing programs, including kids fishing derbies and education on stocking.
- More accessible and designated shoreline fishing areas.
- ADA-accessible fishing docks and improved access to the water.
- More fish cleaning stations.

Deterioration/Maintenance of Park Facilities & Trash Management

- Need for improved trash management and disposal.
- Trash and litter throughout the park, including shoreline and campgrounds.
- Deteriorating restrooms and showers need repair and maintenance.
- Aging or damaged facilities, including playgrounds, picnic areas, and shade structures.
- Damaged or uneven bike paths, including the dam road.
- Deteriorating docks, boat launch areas, and marina infrastructure.

Campground Experience & Noise

- Noise beyond quiet hours and need for stronger enforcement.
- Rodents and pests in campgrounds, including rats, squirrels, and roaches.
- Improve restrooms and showers maintenance.
- Larger campsites and more space between RV sites.
- More shade trees throughout campgrounds.
- Campsites with views of the lake.

Improvements to Trails & Non-Motorized Recreation

- Conflicts between cyclists, hikers, and equestrians on shared trails.
- Need for improved trail signage and etiquette education.
- More and improved mountain biking trails.
- Bike path safety and connectivity issues near picnic areas.
- E-bikes and motorized scooters on trails require better regulation.
- Equestrian needs, including water access, trailer-friendly sites, and restrooms.

Park Entry & Access

- Long wait times at entry gates during peak periods, weekends, and events.
- Boat inspection delays contributing to entry bottlenecks.
- Mixing annual pass holders with new boaters slows entry.
- Separate check-in lanes for campers, day users, and boaters
- Limited gate operations despite multiple entrances.
- Need for alerts or advance notice when gates are closed or understaffed.

Amenities & Services

- Return of historic amenities, including marina store, diner, and on-water fuel station
- Permanent and better-managed concessions.
- Boat and watercraft rentals, bait shop, and general store.
- Sit-down dining options within the park.
- Poor cell service and unreliable Wi-Fi throughout the park.

Future Park Opportunities

7. Tell us what you love about Lake Perris State Recreation Area and what makes it special to you.

Key Takeaways from Write-In Responses to Question 7:

Proximity, Accessibility & Affordability

- Closest lake/nature destination for residents of Perris, Moreno Valley, Riverside, and surrounding communities.
- Easy to visit on short notice or for unplanned trips.
- Feels remote once inside despite being close to home.
- Affordable entry, especially with an annual or state park pass.
- Conveniently close to stores and services if something is needed.

Natural Beauty & Environment

- Views of San Jacinto Mountains, open skies, and beautiful sunsets and sunrises
- The island is a distinctive and beloved feature.
- Seasonal changes in the park — winter greenery, migratory birds, and spring wildflowers.
- Deer, coyotes, jackrabbits, roadrunners, and quail once commonly seen.
- Park described as an oasis within a heavily developed region.

Recreation Variety

- The paved loop around the lake offers opportunities for walking and biking.
- Swimming in clean, warm water, directly from campsites in some areas.
- Boating, wakeboarding, wakesurfing, kayaking, paddleboarding, and jet skiing.
- Mountain biking trails are a strong draw, particularly for the SoCal League racing community.
- Equestrian trails praised for variety of terrain and separation from general campgrounds.
- Hiking trails are appreciated for views and exercise, especially in cooler months.
- Scuba diving is a rare freshwater option in Southern California.
- Hunting is valued and a hard-to-find activity in the region.

Fishing

- Fishing is enjoyed across all age groups and experience levels.
- Bass, crappie, and shore fishing noted as current draws.
- Family fishing traditions passed down from grandparents to grandchildren.
- First fishing and boating experiences linked specifically to Lake Perris.

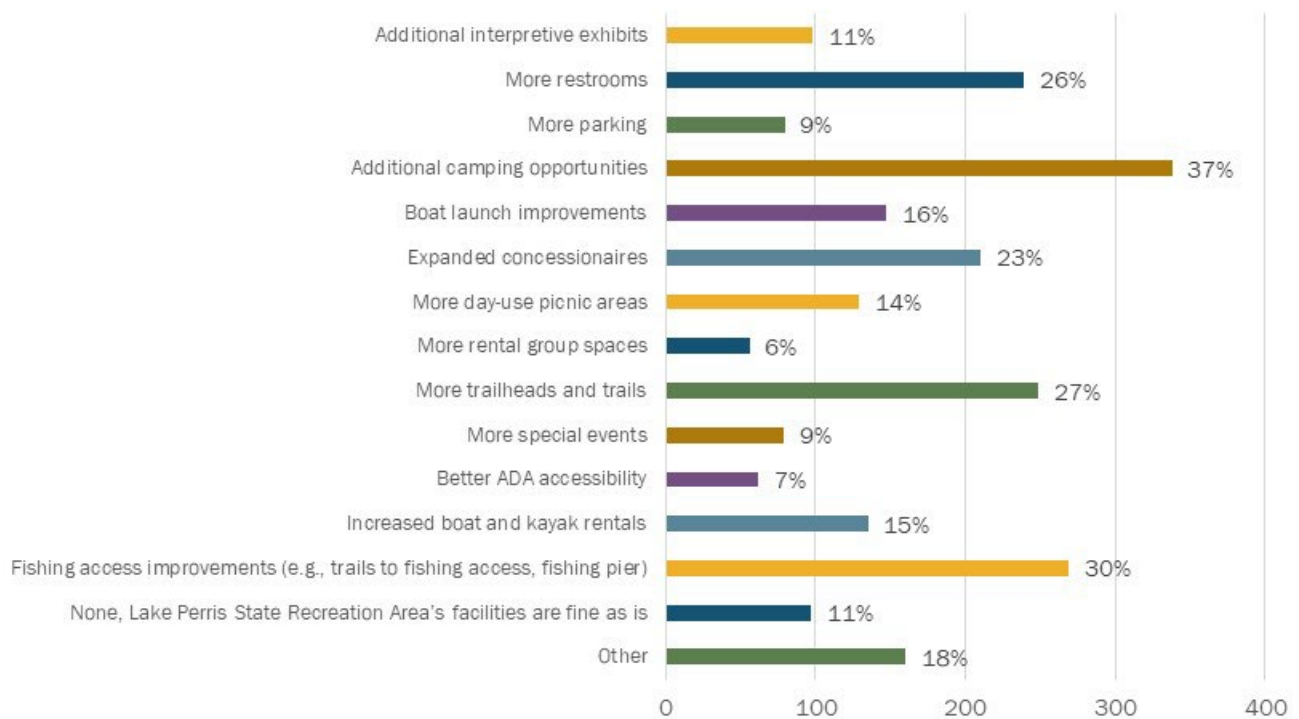

Camping & Group Use

- Spacious campsites with fire pits and picnic tables are well-liked.
- Lakeside and lake-view sites are especially valued.
- Group campsites support schools, youth groups, clubs, and reunions.
- RV hookups and dump stations are appreciated by regular campground visitors.
- Off-season camping is praised for peacefulness and easy availability.

Generational Connection, Culture & Community

- Many respondents have been visiting the park for 30–60 years, starting as children.
- Park is a place for family reunions, birthdays, anniversaries, and holiday traditions.
- Strong sense of nostalgia and emotional attachment to the park's history.
- Indigenous museum is a meaningful feature, honoring indigenous cultural history and land connection.
- Desert Daze music festival and concerts are a draw of the park.
- SoCal MTB League races build a dedicated returning community.

8. Which of the following day-use facilities and amenities would you like to see more of at Lake Perris State Recreation Area? (Select all that apply)

Other Suggestions from Write-in Responses for Question 8:

Need for Improved Maintenance and Modernization of Existing Facilities

- Improve maintenance and upkeep of existing facilities, enforce existing rules, and address outdated amenities before adding new ones.
- More trash cans at beaches and near fishing areas with more frequent litter-pick up.
- Restroom and showers improvements, including flushing toilets at the Bernasconi area and lighting within the restrooms.
- Improve Wi-Fi availability due to poor cell reception on the grounds.

Park Safety & Enhanced Enforcement

- Increased patrols and ranger presence on the lake and throughout the park, with enhanced enforcement of existing rules.

Shade & Landscaping

- More trees and shade structures.

Trails, Biking, & Active Recreation

- More mountain biking trails and mountain bike only trails to reduce conflicts with other users.
- Development of a pump track/bike park.
- Additional bike lanes on the main road.
- Repave bike trail across the dam.
- Additional recreation facilities, including a disc golf course and outdoor fitness equipment.

Fishing, Water Recreation & Access

- More trout stocks and improvements to fish habitat.
- Fix/add more designated fishing areas and fish cleaning stations.
- Improve access to the lake including dedicated signage and trail access to the shoreline, ADA-accessible paths to the lake, and kayak launches.
- Overnight boat mooring and dock.
- Affordable boat and pontoon rentals.
- Marina with food sales.
- Improve facilities on the island including beach improvements, picnic tables, and shade areas.
- Expand beach and swimming areas.
- Cabana rentals closer to the water.

Concessions and Family/Group Amenities

- General store, food concessions including snack stands and sit-down dining.
- Playground and kids swimming area.
- Covered shelters for outdoor group activities or a clubhouse.
- Water park or pool within the campground.

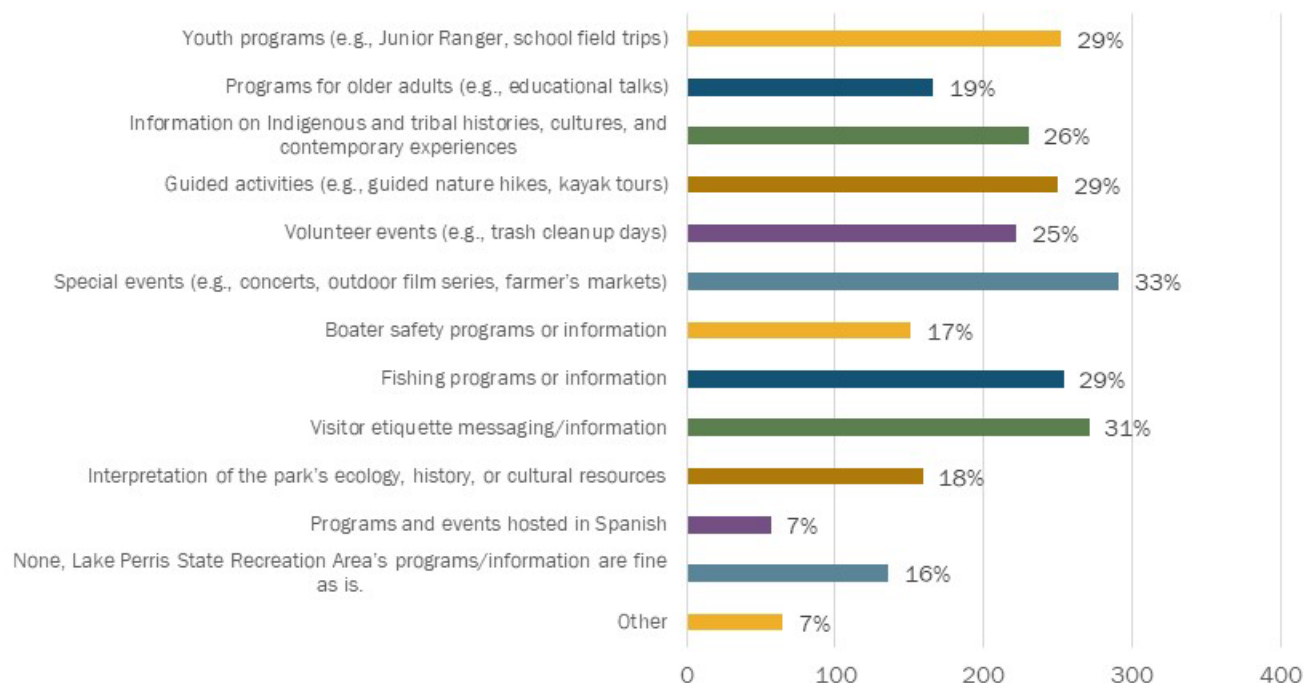

Special Amenities

- Dog parks and dog beach.
- Improved equestrian facilities including horse trail areas, better parking for horse trailers, and toilets in the horse camp.
- Additional hunting opportunities including blinds for duck hunting, quail and duck hunting in the back lands, tent camping within hunting areas.

Special Events and Education Opportunities

- Interest in returning special events, including Desert Daze and the Christmas Boat Parade.
- More community-oriented events and engagement opportunities.
- Concerns about special events that require lake or park closures.
- Promote educational opportunities to showcase exhibits on native plants and Indigenous history.
- Museum improvements.

9. Which of the following programs, information, and events would you like to see at Lake Perris State Recreation Area? (Select all that apply)

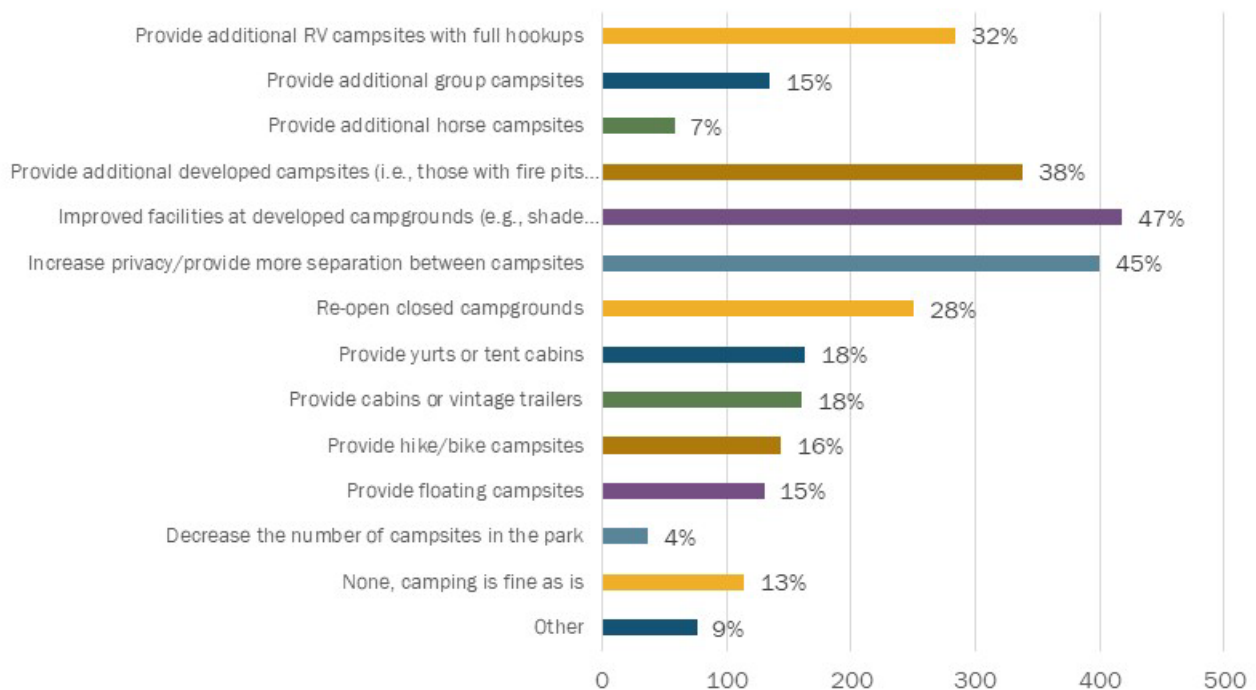

Other Key Takeaways From Write-in Responses for Question 9:

- Interest in returning Desert Daze and expanding concerts, alongside opposition to events that block public access.
- Trout stocking and youth fishing opportunities, including kids' fishing derbies.
- Visitor etiquette materials, including lake safety education.
- Youth programs, including homeschool days and hunting and fishing education.
- Volunteer programs and events, including trash clean-up days and underwater clean-up at swimming areas.
- Outdoor competitions and events, including RC and drone activities during slower seasons.

10. Which of the following actions related to camping would you like to see at Lake Perris State Recreation Area? (Select all that apply)

Other Key Takeaways from Write-in Responses for Question 10:

Safety, Security & Rule Enforcement

- Less noise, loud music, and disturbances during quiet hours.
- More consistent enforcement and predictable patrols for added effectiveness.
- Need for visible and ongoing ranger or security presence.
- Reduce non-paying visitors entering the campground after hours.
- Improved lighting in campgrounds and facilities to enhance safety and deter disruptive behavior.
- Avoid large party groups exceeding site capacity.
- Address people parking on curbs.

Campsite Quality, Size & Infrastructure

- Sites are too small, closely spaced, and lack privacy.
- More dispersed camping and quieter camping areas.
- Interest in natural buffers and separation between sites and campground loops.
- Uneven and sloped sites create challenges for RV setup.
- Need for sites that accommodate larger RVs (35–40 feet) with appropriate hookups.
- Trailer and motorhome pads need repaving.
- Interest in having more campsites closer to the water.
- Broader infrastructure needs, including electric hookups, restrooms, and showers.
- Horse camp is underserved.

Shade, Landscaping & Cleanliness

- Limited trees and shade make the campground feel exposed and less natural.
- Interest in trees and shade structures throughout campgrounds.
- Restrooms are poorly maintained, with cleanliness and lighting issues.
- Trash left on campsites and beach areas and not taken to dumpsters.
- Need for rodent and pest control.
- Vegetation management needed to address weeds and overgrowth.

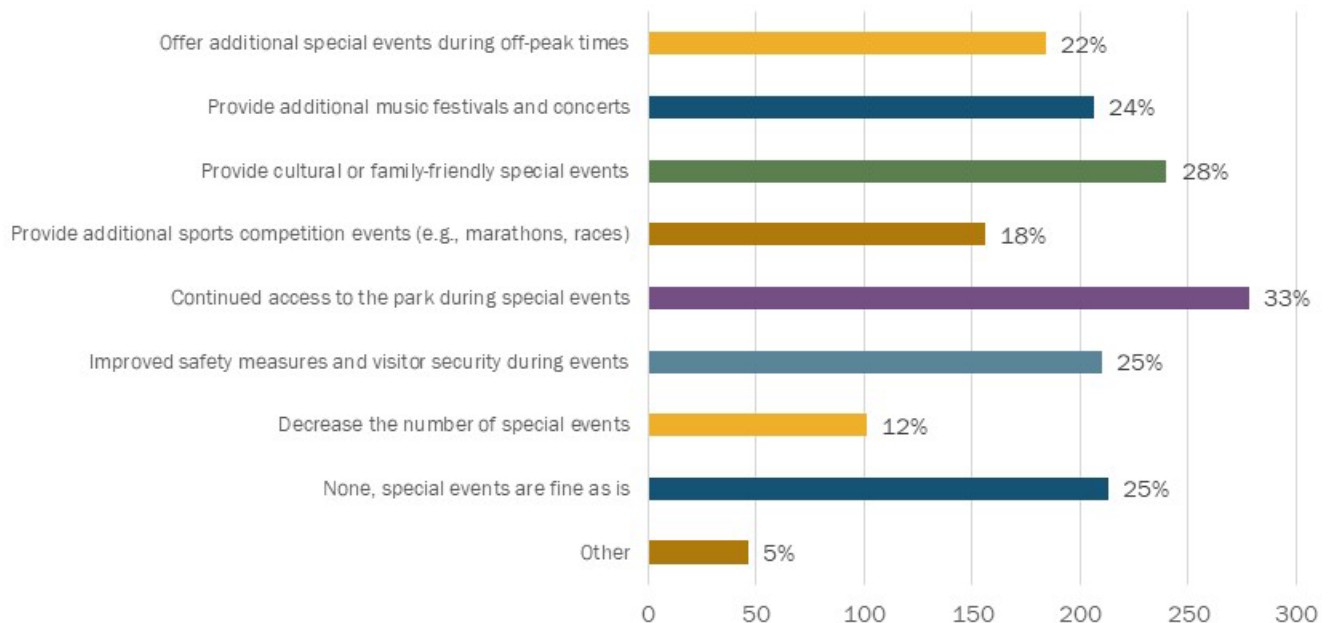

Programming, Activities & Amenities

- Expanded ranger-led and organized recreation, such as hiking, biking, and outdoor activities.
- Interest in premium experiences, such as island camping and event-based programming (e.g., music festivals).
- Interest in expanded nighttime recreation, including night boating and fishing for campers.
- Improved internet and cell service throughout the campground.

Fees & Affordability

- Camping fees are too high compared to similar or higher-quality campgrounds.
- Desire for lower overall costs, including removal of additional fees (e.g., dump fees, extra vehicle fees).
- Request to pause future camping fee increases.
- Lower overall fees to make the park more accessible to local families.
- 30-day annual camping is restrictive, particularly for long-term or full-time RV users.

11. Which of following changes related to special events would you like to see at Lake Perris State Recreation Area (Select all that apply)

Other Key Takeaways From Write-in Responses for Question 11:

Management and Access

- Concerns about ticketed events restricting access to the park.
- Access for annual pass holders and campers during events.
- Advance notice and clearer communication when events impact park access.
- Faster entry and check-in during special events.
- Consistent enforcement of existing rules and regulations during events.

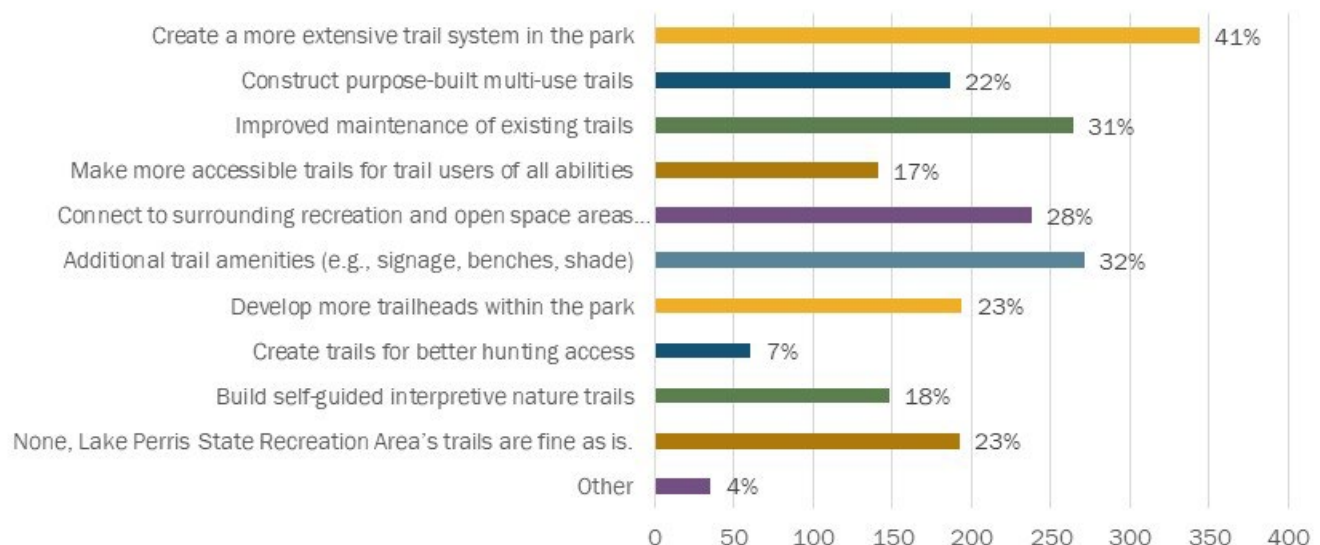

Types & Opportunities

- Community-oriented, small-scale events such as farmers markets, food truck days, and craft-based gatherings.
- Recreation-based events, including fishing tournaments, dog shows, equestrian events, and water-based activities.
- More unique event formats and use of different areas of the park (e.g., island-based events).
- Expand outdoor recreation events, such as mountain biking races.

Sentiment & Tradeoffs

- Trash, environmental impacts, and disruption to the park experience during large events.
- Continue events and programming.
- Opposition to events that require full or partial park closure or limit access for non-attendees.

12. Which of the following actions relating to trails would you like to see at Lake Perris State Recreation Area (Select all that apply)

Other Key Takeaways From Write-in Responses for Question 12:

Trail Use Conflicts and Safety

- Concern that bikes and horses sharing trails is dangerous due to speed and poor visibility.
- Desire to separate trail users or clarifying right-of-way.
- More trail etiquette signage and user education.
- Restrict incompatible uses, including e-bikes and ATVs.

Trail Design and User Experience

- Expand mountain biking infrastructure, including purpose-built trails, longer routes, and pump track or bike park features.
- Dam road conditions need repair.
- Dog-friendly trails near campgrounds.
- Trails that improve access to fishing areas.
- Guided or ranger-led trail programs.
- Some respondents were unfamiliar with existing trails.

Trail Infrastructure, Signage, & Amenities

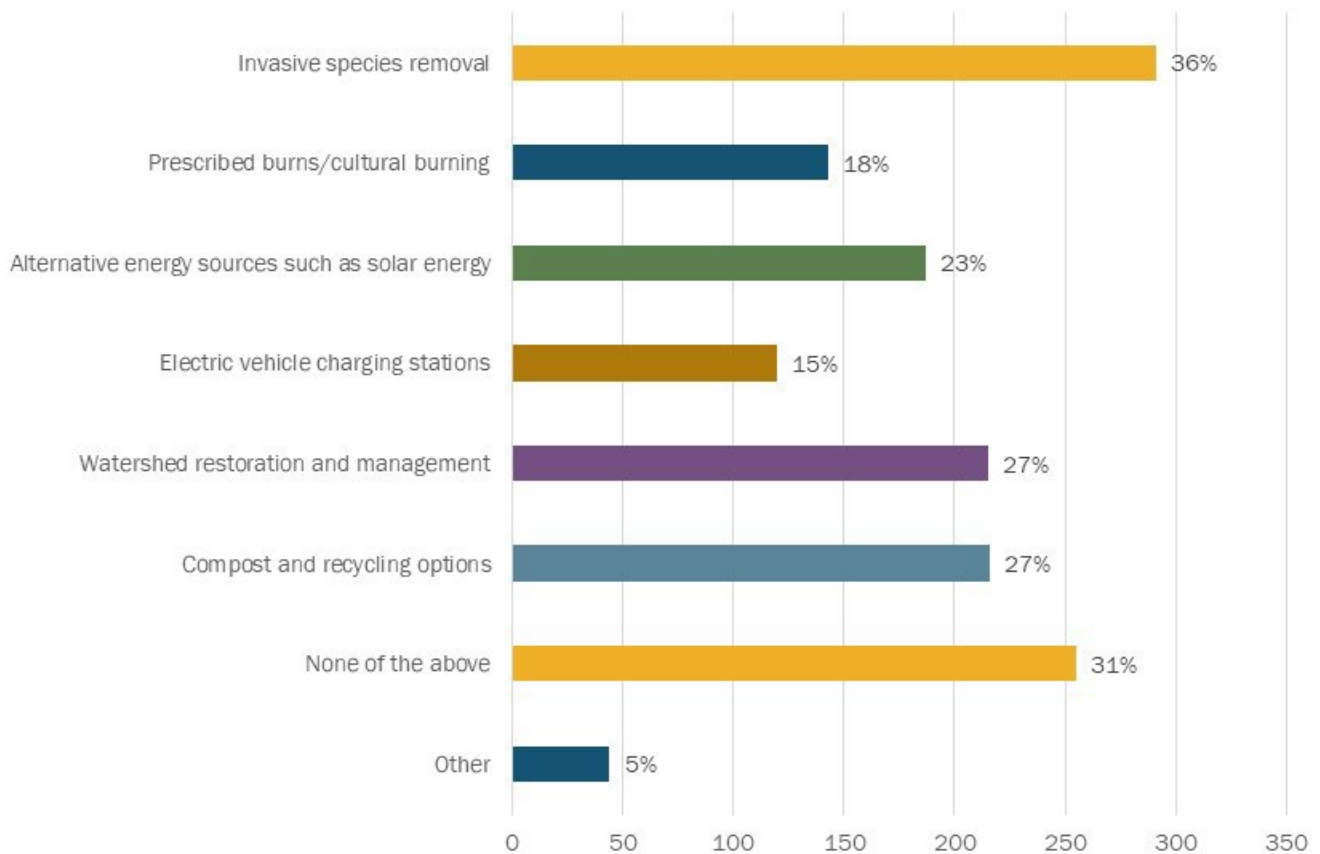

- Improved trail signage and maps.
- Multilingual and user-specific signage (e.g., equestrian).
- Water fountains, restrooms, and lighting along trails.
- Deteriorating trail surfaces, including the dam area.
- Overgrown or inaccessible trail segments.

Environmental Management and Stewardship

- Vegetation management and native plant restoration.
- More trees and shade along trails.
- Leave No Trace signage throughout park.
- Enforce rules and cleanliness standards along trails.
- Dog and horse waste on trails needs regular pickup.
- More trailhead access to shore fishing spots around the lake.
- Dog-friendly trails within proximity to campgrounds.
- Daily ranger-led walks highlighting the park.
- Guided trail tours for teens, tweens, and kids.
- Better internet access throughout the park.

13. Please select the improvements that you would like to see at Lake Perris State Recreation Area to promote resource management and climate change resilience. (Select all that apply)

Other Key Takeaways From Write-in Responses for Question 13:

Fish Stocking & Fishery Management

- Trout stocking during winter months.
- Fish attracting structures such as brush piles and rock piles in areas lacking habitat.
- Import brood stock of Lake Havasu Redear Sunfish.
- Disposal units for fishing waste.
- Fishing line recycling containers.
- Fish cleaning stations.
- Electrical outlets at campsites for bass tournament anglers to charge boat batteries overnight.
- Overnight boat mooring and docks.

Native Plants, Vegetation, & Environmental Stewardship

- Plant more native trees and shrubs throughout the park.
- Establish dedicated native plant areas at common spaces.
- Invasive species removal.
- Rainwater collection and recharge basins using native plants for shade.
- Remove dead trees as a safety hazard.
- Alessandro Island overgrowth needs clearing.
- Balloon ban within the park.
- Dedicated recycling options near trash dumpsters.
- Fishing line recycling containers and fines for littering.

Cleanliness, Maintenance, & Facilities

- Restrooms and showers need additional maintenance.
- Trim foliage for RV clearance and level campsites.
- Better garbage pickup along the shore.
- Ground squirrel and roach pest control impact camper health and safety.
- General store requested.
- Perception that park is understaffed, making continued maintenance a challenge
- Improve internet and Wi-Fi access throughout the park.

Water Quality & Boating Safety

- Cleaner water overall.
- Dredging and trimming around the lake.
- Enforce wake zones and safety rules.
- More sheriffs and rangers presence with pack-in pack-out signage.

Equestrian & Multi-Use Recreation

- Horse camp isolated, solo riders feel unsafe without staff presence.
- Easier manure removal from horse campground.
- Hunting days need physical signage, not just online posting.
- More mountain biking and multi-use trails.
- Security in campground needed to address ongoing safety concerns.

14. Is there anything else that you think California State Parks should prioritize in the Lake Perris State Recreation Area General Plan and EIR?

Key Takeaways from Write-In Responses to Question 14:

Water Safety & Boating Enforcement

- Water safety is a common concern amongst respondents.
- Jet skis in no-wake zones, wrong-direction travel, and reckless operation near swimmers and kayakers.
- Boater safety cards checked at entry, jet ski rental operators required to show proof of knowledge, and boat capacity reduced.
- Improve launch ramp management.
- Buoys are missing, broken, or scattered.
- Improved signage at the water.

Fish Stocking & Fishery Restoration

- Comprehensive fishery restoration and return of trout stocking, essential for entry level fishing, youth anglers, and winter visitation.
- Shore fishing access, ADA-accessible docks and shore access, fish cleaning stations, and fishing piers at multiple locations.
- Open park earlier for fishermen, reduce tournament fees, and enforce fish limits.

Facilities, Maintenance & Campground Quality

- Restrooms, roads, playgrounds, and infrastructure in need of maintenance and upgrades.
- Dam road repairs and bike path repaving needed.
- RV sites are too small, not level, lacking full hookups, and need more shade and privacy.
- Consider adding amenities at lake including full marina with in-water boat slips, permanent store, bait shop, and restaurant.
- Add water slides and a water park.
- ADA accessibility to beach and water needed on both sides of the lake.

Safety, Security & Rule Enforcement

- Loud music past quiet hours is an issue.
- Increased and consistent enforcement throughout the park, including improved patrol presence and emergency response.
- Concerns about unsafe conditions from illegal activity and unauthorized access after hours.
- Enforcement of fines for noise violations, littering, and leaving campsites dirty.

Recreation & Amenities

- More mountain biking trails and separate trail systems for cyclists, equestrians, and hikers, shared use can be dangerous.
- Affordable boat, kayak, and paddleboard rentals; snack bars, food concessions, and a general store within the park.
- Opposition to special events that close the lake.
- Interest in returning the Desert Daze music festival.

- Other respondents expressed a desire for a return of Desert Daze music festival.
- Suggestions for indigenous museum improvements, bilingual interpretation, and children's programming and playgrounds.
- Poor cell reception and Wi-Fi cited as a top barrier to extended and weekday visits.

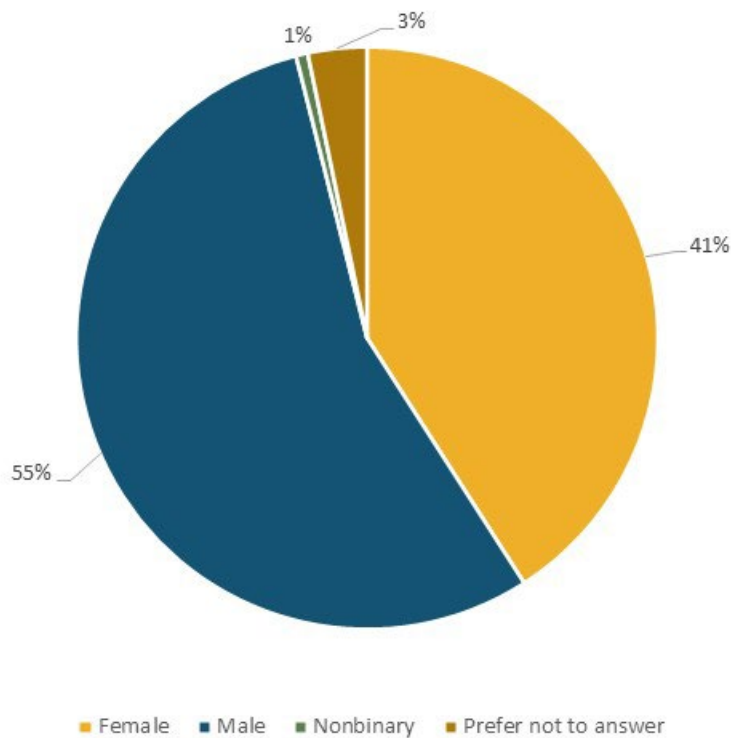

1.6 DEMOGRAPHICS SURVEY

15. What is your zip code?

The survey received more than 300 unique responses to this question. Most respondents reported zip codes within Riverside County. The top five most common responses include:

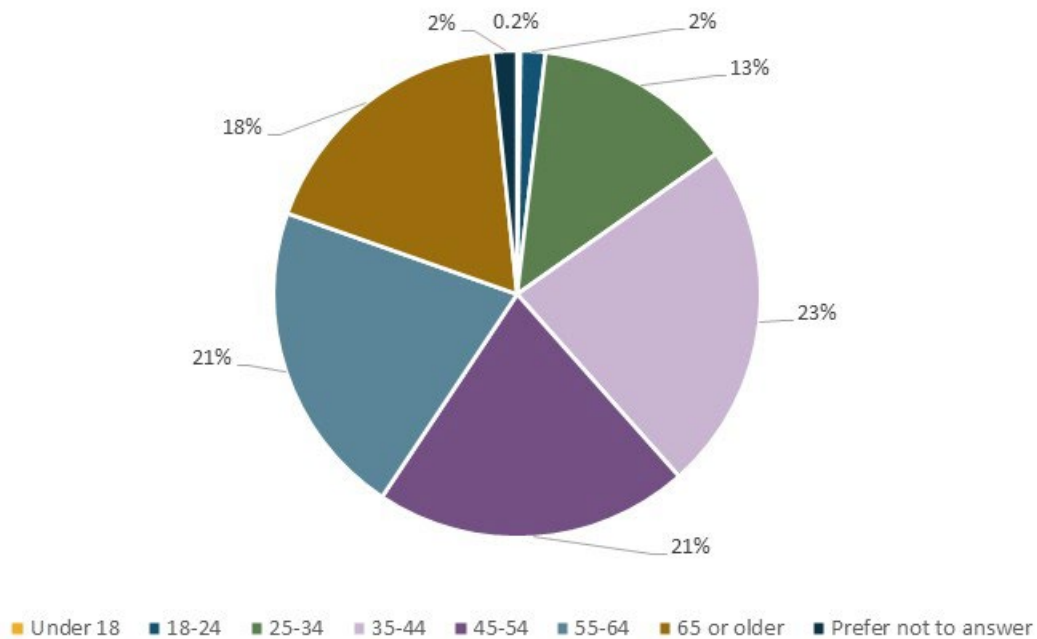

- **92555 and 92557** – City of Moreno Valley, Riverside County
- **92571** – City of Perris, Riverside County
- **92508** – City of Riverside, Riverside County
- **92223** – City of Beaumont, Riverside County

16. What is your gender?

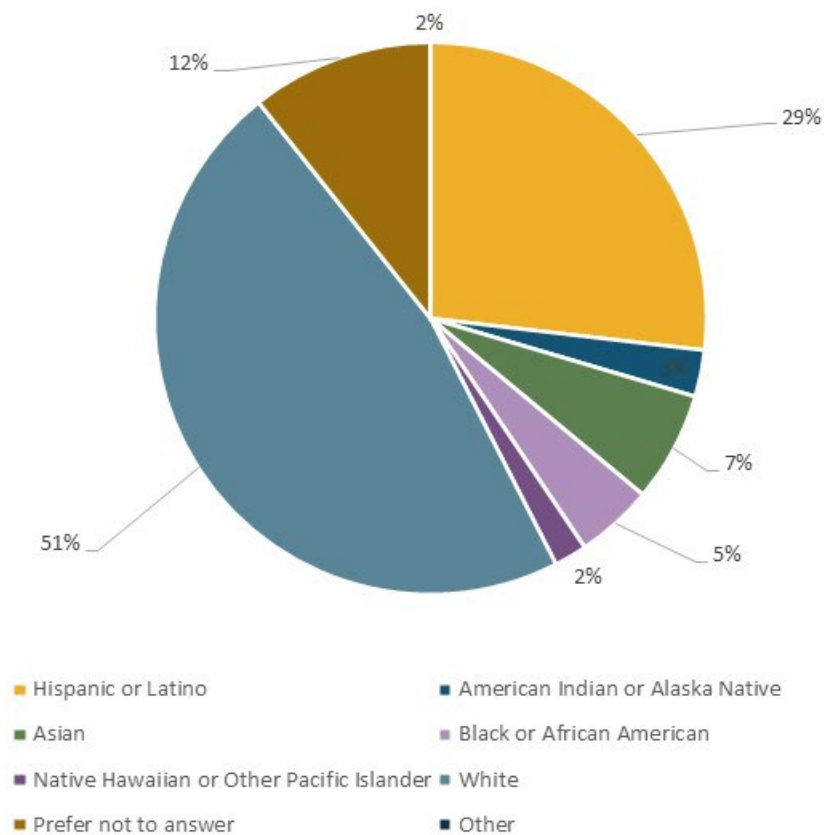

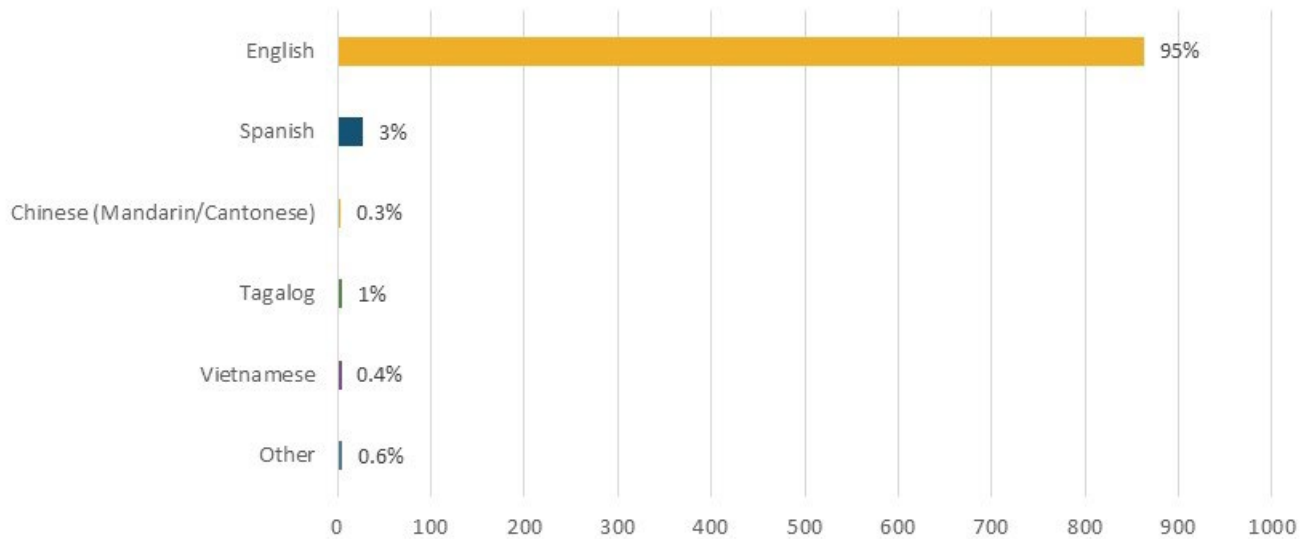

17. What is your age?

18. What is your ethnicity/race? (Select all that apply)

19. What is your primary language spoken in your home?

20. What is your annual household income?
